NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2006
(Unaudited - Prepared by Management)
(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

The Company is in the process of exploring its mineral properties and evaluating other mineral properties in South America. The Company presently has no proven or probable reserves and on the basis of information to date, it has not yet determined whether these properties contain economically recoverable ore reserves. The Company has not generated any revenues from its operations to date and consequently is considered to be in the exploration stage. The amounts shown as mineral properties and deferred costs represent expenditures incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. The underlying value of the mineral properties and deferred costs are entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to complete development, and future profitable production.

The Company considers that it has adequate resources to maintain its core operations for the next fiscal year but currently may not have sufficient working capital to fund all of its planned exploration and development work. The Company will continue to rely on successfully completing additional equity financing.

2. TRANSFER OF ASSETS

On July 7, 2004, IMA Exploration Inc. ("IMA") completed a corporate restructuring plan (the "Reorganization") which resulted in it transferring certain assets and liabilities to Golden Arrow Resources Corporation (the "Company"), a newly created company. The Reorganization was accomplished by way of a statutory plan of arrangement. Shareholders of IMA were issued one share of Golden Arrow for every ten shares of IMA held.

During the period ended September 30, 2005 the Company received \$145,867 from IMA from the exercise of IMA's warrants that resulted in the issue of the Company's shares as required by the terms of the Reorganization. All warrants that were outstanding as of the effective date of the Reorganization were exercised by March 31, 2005 and the Company has no obligations for the issue of its shares on the exercise of IMA's warrants.

3. SIGNIFICANT ACCOUNTING POLICIES

- (a) The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgement within reasonable limits of materiality. These interim consolidated financial statements should be read in conjunction with the most recent annual consolidated financial statements. The significant accounting policies follow that of the most recently reported annual consolidated financial statements.
- (b) Certain comparative figures have been reclassified to conform to the current year's presentation.

4. MARKETABLE SECURITIES

At September 30, 2006, marketable securities had a quoted market value of \$592,158 (December 31, 2005 - \$1,072,045). The Company holds these marketable securities as a result of entering into option and sale agreements for certain of its mineral property holdings.

(a) Argentinean Properties

The Company has either staked, fully paid or holds options to acquire 100% working interests in mineral properties, located in the Provinces of San Juan, Jujuy and Chubut in Argentina. As of September 30, 2006, the Company must make further payments with respect to option agreements on the properties located in San Juan province totalling US \$140,000 (US \$70,000 payment is due in December 2006 and US \$70,000 in December 2007).

The Company has also agreed to pay net smelter return royalties ("NSR") of up to US \$7,000,000 once commercial production is achieved on the Valle de Cura properties. The US\$7,000,000 was calculated based on the following:

- 3 Properties - up to US \$1,000,000 in NSR each
- 5 Properties - up to US \$800,000 in NSR each

On June 29, 2006 the Chubut provincial government announced a 36 month metallic mining suspension in western Chubut Province which directly affects the Company's Laguna de los Toros, Costa and Corcovado properties. The Company wrote off the carrying value of \$176,990 of these properties during the period ended September 30, 2006. (See Note 10(b).)

5. MINERAL PROPERTIES AND DEFERRED COSTS (continued)

(b) Rio Tabaconas, Peru

The Company holds an option to acquire a 100% interest in three concessions, in the Cajamarca Department of San Ignacio Province in northern Peru. In addition, the Company owns ten concessions, which surround and overlie the optioned concessions. Collectively these are known as the Rio Tabaconas Project.

Under the terms of the option agreement, the Company has paid US \$185,000 and was required to make further payments of US\$1,315,000 for a total of US\$1,500,000. On June 28, 2002, the Company suspended further exploration activities at the Rio Tabaconas project. This decision was made in response to the local community expressing its concerns with mineral exploration activities. The Company has deferred any further exploration until an agreement with the local community has been finalized. As a result the Company declared force majeure, as allowed under its option agreement. Accordingly, the Company and the optionor have deferred payment of the remaining option payments until the force majeure is discontinued. On August 1, 2003, the Company commenced paying US\$1,500 per month to the optionor as compensation during this waiting period. The Company is now in the process of renegotiating the option agreement on Rio Tabaconas project and starting July 2006 commenced paying US\$3,000 per month to the optionor. Force majeure is still in effect as at September 30, 2006.

(c) The Company has agreements with Amera Resources Corporation (“Amera”), whereby the Company optioned its Mogote Property in the NW San Juan Region of Argentina. Amera has the option to earn a 51% interest in the 8,009 hectare Mogote Property by issuing a total of 1,650,000 common shares of Amera to the Company and by incurring US \$1.25 million of expenditures, including work programs and underlying option payments, all over a five year period ending July 1, 2007. Amera has reimbursed the Company for past payments made and expenditures which had been incurred by the Company on the Mogote Property. To date the Company has received 750,000 shares of Amera with an ascribed value of \$329,000.

On April 8, 2004, the Company entered into a further agreement with Amera, whereby Amera can earn an additional 24% interest, for a total 75% interest, after earning the initial 51% interest, by issuing 300,000 shares (issued) of Amera (with an ascribed value of \$279,000) and conducting an additional US \$3 million of exploration expenditures over a three year period ending May 20, 2007.

During the period ended September 30, 2006, the Company re-negotiated the certain terms of its Mogote property option agreement with Amera, the US\$1,000,000 property expenditures required by May 30, 2006 are now extended to May 30, 2007 and the US\$1,000,000 property expenditures required by May 30, 2007 are now extended to May 30, 2008. In return for granting of the extension, 10% of any payments in terms of cash or stock received by Amera from a third party who enters into an agreement regarding the Mogote property, will be paid to the Company.

(d) The Company has signed and will continue to sign joint venture agreements for certain of its properties with other junior exploration companies. The Company normally receives shares in these companies as compensation along with their commitments for exploration expenditures.

(b) Warrants

Pursuant to the terms of the Reorganization the Company was required to issue one common share on the exercise of every ten IMA warrants which were outstanding on the date of the Reorganization. As of September 30, 2006 the IMA warrants have either been exercised or expired.

At September 30, 2006 the Company has 3,301,012 warrants outstanding with an exercise price of \$0.80 and expiring November 16, 2006 (see Note 10). During the period ended September 30, 2006, 373,888 warrants with an exercise price of \$0.80 were exercised for proceeds of \$299,110.

7. RELATED PARTY TRANSACTIONS

Effective January 1, 2005 the Company engaged Grosso Group Management Ltd. ("Grosso Group") to provide services and facilities to the Company. The Grosso Group is a private company owned by the Company, IMA, Amera, Astral Mining Corporation and Gold Point Energy Corp., each of which owns one share. The Grosso Group provides its shareholder companies with geological, corporate development, administrative and management services. The shareholder companies pay monthly fees to the Grosso Group. The fee is based upon a reasonable pro-rating of the Grosso Group's costs including its staff and

overhead costs among each shareholder company with regard to the mutually agreed average annual level of services provided to each shareholder company. During the nine months ended September 30, 2006, the Company incurred fees of \$188,167 to the Grosso Group: \$182,520 was paid in monthly payments and \$5,647 is included in accounts payable, as a result of a review of the allocation of the Grosso Group costs to the member companies for the period. The fees the Company pays to the Grosso Group are allocated to various expense items that reflect the nature of the actual costs: rent, salaries, office and telephone. These fees are equivalent to costs the Company would have incurred directly. In addition, included in accounts receivable and prepaid expenses balance is an \$85,000 deposit to the Grosso Group for the purchase of equipment and leasehold improvements and for operating working capital.

8. SEGMENTED INFORMATION

The Company is involved in mineral exploration and development activities, which are conducted principally in Argentina and Peru. The Company is in the exploration stage and, accordingly, has no reportable segment revenues or operating results.

The Company's total assets are segmented geographically as follows:

9. CONTINGENCY

In March 2004, Aquiline Resources Inc. (“Aquiline”) commenced an action against IMA seeking a constructive trust over IMA’s Navidad properties and damages. On July 14, 2006 the Supreme Court of British Columbia released its judgment in Aquiline lawsuit against IMA. IMA was not successful in its defence and the court has found in Aquiline’s favour. IMA has filed an appeal of this judgment. As a condition of the Reorganization, the Company became a party to this action. The Company received an indemnification from IMA that will compensate for any payment or cost the Company might have to pay in the event of an award against IMA and/or the Company. Accordingly, no amounts related to this judgment have been accrued in these financial statements at September 30, 2006.

10. SUBSEQUENT EVENTS
